(Diciarazione Ufficiale) Official Statement

26th October, 2026

Italian football club S.S. Lazio would like to declare that the meeting between the President of Internazionale Milano and S.S. Lazio's owner Claudio Lotito was a coincidence and had nothing to do with Arsenal's recent declaration of bankruptcy. It took place at Westin Hotel in Milan and was only held for matters related to Serie A and the resolving of transfers and clauses between the two clubs that took place. The bodyguards are always alert near the president of Inter and Lazio to prevent any procedure of assassination or kidnapping as they recieve many death threats from the people and media.

Concluding this, Football Club SS Lazio wants to highlight that there was nothing serious or anything related to Arsenal, just related to the transfer of a player between clubs that was due.
