Società Sportiva Calcio Napoli can no longer stay quiet on the situation going on in the Premier league after the recent takeover of Arsenal FC by Sheikh Mohammed bin Rashid Al Maktoum.The prime minister of Dubai who also played a role in establishing Emirates which is owned by the government of Dubai.

The sponsor of Arsenal fc is also Emirates this situation is extremely concerning because of how similar it is to the Manchester City case after UEFA accused them for overstating sponsorship, where their owner Sheikh Mansour bin Zayed Al Nahyan allegedly covered part of their sponsorship deals the case was later modified by the CAS. We believe that UEFA should ensure a scandal like this does not occur again.Napoli does not presume any allegation as wrongdoing on any club until proper investigation but the similarities raise concern.

We believe that owner connected sponsorship itself is not wrong as long as the value of the sponsorship is fair for all. We believe Arsenal should stay transparent about all sponsorship deals and relevant information should be provided.
